EDUCATIONAL MEDIA (MEDI)

MEDI 500 - Media, Technology, and Learning in the Curriculum  
3 Credits
The organizing and integrating of media in school curricula and other educational programs. Identifying instructional purposes and defining roles for technology and media in learning and teaching. Examining and comparing curriculum designs for their concordance with the procedures of technology in education. Selection and evaluation of materials. 3 hours lecture.

MEDI 503 - Critical Basics of Media and Technology Production  
3 Credits
This course introduces critical and practical frameworks for producing educational media. Students engage in hands-on production of multiple media forms to support a variety of curricular goals, with emphasis on digital media. Students explore the possibilities of multimedia and non-linear teaching and learning for educators and learn the fundamentals of interactive and integrative curriculum design across MacIntosh and PC-based computer platforms. Open to matriculating and non-matriculating students. 3 hours lecture.

MEDI 504 - The Role of the Media Specialist  
3 Credits
This introductory course explores the collaborative role of the media specialist in educational renewal and the systemic integration of technologies into schools, districts and communities. The course explores the coordination and management of media resources, leadership responsibilities, professional development, standards & assessment, organizational communication and ongoing support as interrelated elements in effective educational technology integration. 3 hours lecture.

MEDI 505 - Access and Organization of Educational Media  
3 Credits
This hands-on seminar explores global and systemic approaches to creating a library or media center collection within school and community structures. The course focuses on access, cataloging, and classification of library resources in multiple media formats using various classification schemes. 3 hours laboratory.

MEDI 506 - Evaluation and Selection of Educational Media  
3 Credits
Emphasizes the evaluation and selection of research materials in multiple media formats - from print to digital. The course provides opportunities to discover what kinds of resources are available and generate criteria for evaluating the quality and usefulness of new and traditional media in supporting the research process. 3 hours lecture.

MEDI 520 - Production of Materials for Media Technology  
3 Credits
For developing advanced proficiency in preparing audio, photographic, and graphic materials. Especially for persons charged with materials preparation in media centers. Laboratory instruction. 3 hours lecture.

MEDI 521 - Design of Innovative Curriculum Resources  
3 Credits
Emphasis on systems design, software, program development, creative development of media for special learning situations, basic design of programmed instruction and multi-media techniques. 3 hours lecture.

MEDI 523 - Integrating Technology Across the Elementary Curriculum  
3 Credits
This laboratory course provides students with hands-on experience in creating educational and instructional technology environments that are student-centered, collaborative, inquiry-based, and emphasize critical thinking. The course explores the fundamentals of interactive design using both Macintosh and PC-based computer platforms. Students orchestrate object, print, video and digital media technologies to support specific curricular goals at the early childhood and elementary levels. 3 hours lab.
