

# UNIVERSITY CATALOG

---

The University Catalog provides information related to Montclair State's Undergraduate and Graduate curricula. The **Majors and Academic Program (Undergraduate and Graduate)** (<http://catalog.montclair.edu/programs>) requirements, and the **Undergraduate Degree Requirements and Graduate Degree Requirements** (<http://catalog.montclair.edu/undergraduate-graduate-degree-requirements>), in this catalog are effective Fall 2018. It is the student's responsibility to complete the curriculum prescribed in the University catalog in effect, or as modified, when he/she matriculates.

It also includes descriptions of the Colleges/Schools, departments and programs. This interactive website not only provides links to the Student Handbook (<http://montclair.edu/dean-of-students/handbook>) and the Course Catalog ([https://ssb.montclair.edu/PROD/bwckctlg.p\\_disp\\_dyn\\_ctlg](https://ssb.montclair.edu/PROD/bwckctlg.p_disp_dyn_ctlg)) for current course titles, descriptions, number of semester hours and prerequisites, but also provides links to non-academic information. Additional information may also be available from various websites of our colleges/schools, departments, institutes and centers, or administrative offices.

Montclair State reserves the right to change any of its policies, regulations or requirements at any time without notice or obligation.

## Advising

Academic advisors and department faculty advisors provide students with assistance in developing an academic program of study, choosing courses consistent with this program as well as discussing career options. All Undergraduate students should seek academic advisement each semester. Students with a declared major receive their academic advising from their major department advisor. Freshmen and Sophomore students who have not declared a major are assigned an academic advisor in University College (<https://www.montclair.edu/university-college>). Students admitted into special programs, such as the Educational Opportunity Fund Program (<http://montclair.edu/student-development-campus-life/educational-opportunity-fund>), the Health Careers Program (<http://montclair.edu/csam/health-careers>) and the Honors Program (<http://montclair.edu/honors>) are assigned advisors within their specific area.

The staff of The Graduate School works to develop and implement programs and services that support the academic mission of the University's graduate programs. The Graduate School offers Graduate Coordinators for each program of study. Details of all support services are available on The Graduate School website (<http://montclair.edu/graduate>).

Montclair State University e-mail accounts serve as the primary point of contact for correspondence with the University. Because of this, students are strongly encouraged to check this e-mail system often for notices from the University that may affect them. Students are responsible for keeping current by reading their University e-mail, visiting the respective University websites, and obtaining academic advisement.
