

# INNOVATION DESIGN CERTIFICATE

---

The 9-credit Innovation Design Certificate is comprised of three courses.

This certificate program is a unique fusion of innovation, entrepreneurship, creative problem-solving, 3D design, and lean manufacturing. Students progress from basic training in 3D printing and entrepreneurial thinking to focused, iterative modeling and prototyping, and finally, working in teams on real-world fabrication and market testing of their creations.

**Eligibility Criteria:** The Innovation Design Certificate is open to any undergraduate student of any major.

## Program Requirements

Code	Title	Credits
ENTR 260	Introduction to Innovation and 3D Printing	3
ENTR 360	Advanced Innovation and Digitally Mediated Making	3
ENTR 460	Applied Digital Innovation Design, and Lean Fabrication	3
<b>Total Credits</b>		<b>9</b>
