

PUBLIC HEALTH MAJOR, COMMUNITY HEALTH EDUCATION CONCENTRATION (B.S.)

When people think about careers in health, many think about medical careers (such as doctor or nurse) that involve treating individuals who have illnesses or injuries. Public health practitioners address the health of whole populations and focus on injury and disease prevention, as well as the promotion of optimal health, rather than on treatment. The B.S. in Public Health with concentration in Community Health Education offers an integrated approach to public health that addresses local, national, and global health issues with an emphasis on social justice.

It provides future community health educators with the skills and knowledge they will need to develop, implement and evaluate programs that target issues as diverse as cancer, obesity, sexuality, aging, violence, maternal and child health, substance abuse, adolescent health, mental health and many more. Students will also understand how to create programs and promote policies that eliminate disparities in health outcomes among different populations so that everyone has an equal opportunity to be healthy. Graduates of the program will work in a variety of settings (government agencies, community clinics, hospitals, nonprofit organizations, corporations) and focus on a variety of age groups, populations and health issues.

Program Requirements Overview

Code	Title	Credits
	General Education Requirements	33
	World Languages and Cultures Requirements	3-9
	Major Requirements	69
	Free Electives ¹	15-9
	Total Credits	120

¹ Graduate Swing Courses will count toward free electives for students in the combined B.S. Public Health/M.B.A. Business Administration program.

Major Requirements

Code	Title	Credits
Public Health Core		
HLTH 102	Introduction to Public Health	3
HLTH 202	Public Health Foundations, Ethics, and Cultural Competency	3
HLTH 204	Social and Behavioral Aspects of Health	3
HLTH 240	Foundations of Environmental Health	3
